

## GFER Forestry Consultants

GFER Forestry Consultants provides comprehensive forest and land management services to individuals, investors, corporations, institutions, and governments.

- We help clients define their land management objectives and tailor our recommendations to achieve targeted results.
  - We assist clients in complex, natural resource decision making and problem solving.
  - We incorporate proven science with operational expertise to achieve our clients' goals.
  - We have a proven track record and an energetic approach to business.
  - We embrace technology and take innovative approaches to traditional services. Our experienced and professional staff helps clients achieve their goals for natural resource management throughout the Carolinas and Virginia.
- We invite you to contact us regarding forest management and real estate sales.
